## EXPERIENCE

**Citta Corp LLC** | New York, NY 2016 - Present

SOFTWARE ENGINEER

- Worked on a suite of microservices and applications built primarily on open source technology using Javascript, HTML, LESS and Angular.
- Created and deployed our corporate website from scratch using Wordpress
- Held sole responsibility for designing and delivering our in-house Inbox service built on the Nylas api
- Maintained code using VMWare, Gitlab, and Version One for an efficient Workflow

**General Assembly** | New York, NY 2015 - 2016

WEB DEVELOPMENT IMMERSIVE

- Studied full-stack web development as part of a rigorous (60+ hrs/week) course
- Solved daily code challenges and built several full stack applications from design to deployment applying best practices and agile methodologies

**Natural Languages** | New York, NY 2012 - 2014

AMERICAN SIGN LANGUAGE INTERPRETER

- Applied my knowledge of ADA accessibility guidelines to provide equal access to communication for various clients in hospitals, conferences, colleges in the NY metro area

## PROJECTS

**Barkr** | Angular • Google Maps API • MongoDB • Express

- Set up playdates for your dog or look for one in your neighborhood

**Text4books** | Javascript • Agile • MongoDB • Bcrypt • Git • AJAX

- Collaboratively developed a full CRUD app that provides a campus-centric marketplace for college students to exchange textbooks

**Pong** | Javascript • HTML5 • Canvas • jQuery

- An interpretation of the godfather of all arcades: Pong
